"The Cryo Lab"

### **Crystallized Popcorn**

Individual servings of popcorn are quickly frozen which creates a smoky frost breath with each bite of popcorn.

### **Arctic Cheesecake**

Traditional Cheesecakes served on a skewer. The Liquid Nitrogen created an inverted cheesecake.

### **Frozen S'Mores**

The S'Mores are torched, let cool and then frozen to -325 F. This creates an inverted take on your favorite traditional snack.
